REEDEREI NSB successfully implements and certifies Health- and Safety Management System BS OHSAS 18001

REEDEREI NSB has successfully implemented and certified the Health- and Safety Management System BS OHSAS (Occupational Health and Safety Series) 18001 in its on shore organization as well as on its offshore jack-up vessels FRIEDRICH ERNESTINE and VICTORIA MATHIAS.

OHSAS 18001 is one of the most significant, internationally recognized Health- and Safety Management Systems, which supports companies in creating a secure working environment – starting with the identification of dangers up to emergency preparedness.

OHSAS 18001 was integrated into the already existing systems ISO 9001 (quality management) and ISO 14001 (environmental management). In doing so, NSB has installed an effective procedure to measurably minimize risks at the workplace.

About REEDEREI NSB:

NSB Niederelbe Schiffahrtsgesellschaft mbH & Co. KG (REEDEREI NSB) is one of the leading container shipping companies in the world. With a fleet of 89 vessels, the company which was founded in 1982 provides quality “Made in Germany”. Apart from the ship management of container ships, tankers and offshore jack-up vessels, REEDEREI NSB is supervising newbuildings and is active in crewing of both its own ships as well as vessels of other parties.

At its own NSBacademy, which employs a modern Ship Handling-Simulator, employees from ashore and seafarers are trained and educated on a regular basis. In its headquarters in Buxtehude and its branches in the United States, Korea and Singapore, REEDEREI NSB employs approximately 250 men and women and 3,000 seafarers.
