UPDATE TO MSC FLAMINIA

MSC FLAMINIA is still in the port of Contanza, Romania.

Before the vessel can continue her journey to the Daewoo shipyard in Mangalia, the ship must be lightened. On July 27, professional firms started to unload and subsequently to dispose fused containers and cargo remains.

The investigation for the cause of the fire has not been completed yet. These will be forwarded locally by expert teams.

About REEDEREI NSB:

NSB Niederelbe Schiffahrtsgesellschaft mbH & Co. KG (REEDEREI NSB) is one of the leading container shipping companies in the world. With a fleet of 88 vessels, the company which was founded in 1982 provides quality "Made in Germany". Apart from the ship management of container ships, tankers and offshore jack-up vessels, REEDEREI NSB is supervising newbuildings and is active in crewing of both its own ships as well as vessels of other parties.

At its own NSBacademy, which employs a modern Ship Handling-Simulator, employees from ashore and seafarers are trained and educated on a regular basis. In its headquarters in Buxtehude and its branches in the United States, Korea and Singapore, REEDEREI NSB employs approximately 250 men and women and 3,000 seafarers.
