NSB GROUP takes 31 vessels under management

In the course of the new joint venture named PT Asia Marine Temas fleet of NSB grows up to 96 vessels in total. At the same time NSB extends its business in Southeast Asia. Partner of the new joint venture is Indonesian shipping company Temasline. Headquarter of the company is located in Jakarta.

Until 2020 the corporate structure of the group of companies will undertake further changes. REEDEREI NSB is extending international ship management activities under corporate brand name NSB GROUP. Thereby the company from Buxtehude takes key steps forward to establish its transformation from a national manager of KG vessels to an international ship manager and maritime service partner. In addition to four primary shareholders, NSB is numbering ten international players, from financial investors, cargo owners and major container lines among its clients.

“The newly established business venture together with Temasline underlines the global focus of NSB GROUP. The partnership is another crucial point of the reorganisation we started with in 2014”, says Tim Ponath, Chief Operating Officer (COO) of NSB.

By currently establishing the joint venture named PT Asia Marine Temas, located in Jakarta, NSB formed a partnership with the Indonesian container shipping company PT Pelayaran Tempuran Emas Tbk, well known as Temasline. In the context of that cooperation both companies are working together in fields of crewing and technical management. Employees from Buxtehude are supporting the operations on site in Jakarta. The joint venture strengthens Ship Management activities and networks of NSB GROUP in South East Asia.

Branch office in China grows likewise: Asia Marine Shanghai, established in 2014, took eight vessels under management in the last year. Same growth is expected for upcoming months. Furthermore performance of technical management will be extended in China.

NSB GROUP has finally completed the company’s exit of German flag after the end of second quarter of 2017.

About NSB GROUP

The history of the NSB GROUP goes back to 1982 when REEDEREI NSB, a German ship manager with a current fleet of 96 ships, was founded. Since 2015 the corporate brand name, NSB GROUP, has also been used by Asia Marine in Shanghai, Busan, Jakarta, Manila und Colombo as well as NSB Marine Solutions, NSB Crewing Solutions, NSB Claim Solutions, NSBacademy und Continental Chartering. The portfolio of NSB GROUP comprises technical & crew management, newbuilding & conversion, in-house training academy, S & P brokerage & commercial management, insurance services, crew & corporate travel. The companies of the NSB GROUP can be found at eleven locations spread all over the globe. They have a combined workforce of more than 252 shore staff and 2,000 seafarers from more than twelve nations.

About Temasline

PT Pelayaran Tempuran Emas Tbk (Temasline), a fully containerized shipping line, was founded in Jakarta on September 17, 1987. Temasline formally became a publicly listed company on July 9, 2003 which subsequently made its own way to be the first Indonesia containerized shipping listed in Indonesia Stock Exchange (IDX).

The company has been focusing its business in container transportation for national markets, including various services to support its main business, such as agencies, stevedoring, depot management, and logistics.

Temasline has, in a span of thirty years, grown steadily to have a fleet of 34 vessels; 40.816 containers and a wide range of business network consisting of 14 branches and 24 agents in major ports throughout Indonesia.
